

## How to Check AUD/USD Spread, Low & High on MT4 Mobile

1. **Open MT4** ☐
  2. Tap **Quotes** (☐) at the bottom menu.
  3. Find **AUD/USD** from the list.
  4. Tap on **AUD/USD** → Click **Details**
  5. You will see:
    - **Spread** (Difference between Bid & Ask price)
    - **Low Price** (Lowest price of the day)
    - **High Price** (Highest price of the day)
- 

### Example Breakdown (Based on Your Data)

#### AUD/USD Spread: 20

- This means the difference between **Bid & Ask price** is **20 points (or 2.0 pips)**.

#### Low Price: 0.62777

- This was the **lowest price** of the market today.

#### High Price: 0.63310

- This was the **highest price** reached today.
- 

### How to Calculate Spread in Pips?

Formula: **(Ask Price - Bid Price) × 10,000**

Example: If AUD/USD has **Bid: 0.62770** & **Ask: 0.62790**,

- Spread = **(0.62790 - 0.62770) × 10,000**
  - Spread = **2.0 pips**
- 

### Extra Tip:

- ☐ The spread is **higher** when the market is **less liquid** (low activity).
  - ☐ The spread is **lower** during active market hours (London/New York session).
-
