

Let's break it down with a **practical example** using **MT4 on your phone** and step-by-step instructions to apply this **trend trading strategy**.

Step 1: Identify the Trend Using Moving Average 50

1. How to Add MA 50 on MT4 (Mobile)

1. **Open your MT4 app** and go to the chart of a major currency pair (e.g., EUR/USD, AUD/USD).
 2. Tap on **(fx) icon** to open the **Indicators** menu.
 3. Select **Moving Average** and set:
 - **Period:** 50
 - **MA Method:** Simple
 - **Apply to:** Close
 - **Color:** Any color you prefer (e.g., Blue or Red)
 4. Tap **Done** – Now MA 50 should appear on your chart!
-

Step 2: How to Find a Buy or Sell Trade Using MA 50

Example 1: Buy Trade (Uptrend Market)

☐ What to look for:

- Price is **above** the 50 MA → This means the market is in an **uptrend**.
- Wait for the price to **pull back** (move downward) and touch the **MA 50**.
- Once price **touches MA 50 and moves back up**, place a **BUY** trade.

How to Enter a Buy Trade on MT4:

1. Tap **New Order**
 2. Select **Market Execution** (or Pending Order if you want to wait for the best price).
 3. Enter **Lot Size:** Use **0.01 lot** (low risk).
 4. **Set Stop-Loss:** 20-30 pips below entry price.
 5. **Set Take-Profit:** 50-100 pips above entry price.
 6. Tap **BUY** to execute the trade.
-

Example 2: Sell Trade (Downtrend Market)

☐ What to look for:

- Price is **below** the 50 MA → This means the market is in a **downtrend**.
- Wait for the price to **pull back** (move upward) and touch the **MA 50**.

- Once price **touches MA 50 and moves back down**, place a **SELL** trade.

How to Enter a Sell Trade on MT4:

1. Tap **New Order**
2. Select **Market Execution** (or Pending Order).
3. Enter **Lot Size**: Use **0.01 lot** (low risk).
4. **Set Stop-Loss**: 20-30 pips above entry price.
5. **Set Take-Profit**: 50-100 pips below entry price.
6. Tap **SELL** to execute the trade.

Step 3: Confirm Your Entry with Candlestick Patterns

- For a **BUY trade**, look for **Bullish Candles** (green candles).
- For a **SELL trade**, look for **Bearish Candles** (red candles).

☐ **Example Confirmation:**

- ☐ If the price **touches MA 50 and forms a bullish engulfing candle** → Enter a **BUY**.
- ☐ If the price **touches MA 50 and forms a bearish engulfing candle** → Enter a **SELL**.

Step 4: Managing the Trade

1. **Monitor Your Trade** in the “Trade” section of MT4.
2. Adjust your **Stop-Loss to breakeven** when trade moves in profit.
3. If price **hits Take-Profit**, the trade closes automatically.
