

If you have **small capital**, it's much better to focus on **real Forex trading** instead of binary options (like Pocket Option). Here's why:

❑ Why Real Forex Trading is Better for Small Capital

- ❑ **Lower Risk Compared to Binary Options** – In Forex, you don't lose your entire investment on one bad trade.
 - ❑ **More Control Over Trades** – You can **set stop-loss & take-profit** to manage risk.
 - ❑ **Use Leverage to Grow Capital** – With **1:100 leverage**, you can trade **\$10,000 with just \$100**.
 - ❑ **Long-Term Growth Potential** – Forex allows you to grow your account slowly, while binary options can cause fast losses.
 - ❑ **More Regulated Brokers** – Forex brokers like **IC Markets, Exness, and XM** are well-regulated, while Pocket Option is high-risk.
-

❑ Best Forex Brokers for Small Capital

If you are starting with **\$10 - \$100**, here are the best Forex brokers that accept **Rwanda** and support **Mobile Money, Crypto, and PayPal**:

Broker	Minimum Deposit	Leverage	Trading Platform	Deposit Methods
IC Markets	❑ \$10	1:500	MT4, MT5, cTrader	Bank, PayPal, Crypto
Exness	\$1	1:Unlimited	MT4, MT5	Mobile Money, Crypto
XM	\$5	1:1000	MT4, MT5	Bank, Mobile Money
FBS	\$1	1:3000	MT4, MT5	Bank, Mobile Money

- ❑ **Best Choice?** If you're in **Rwanda**, I recommend **IC Markets** or **Exness** for **low spreads & mobile money deposits**.
-

❑ How to Start Forex Trading with Small Capital (Step-by-Step)

1. **Choose a Broker** – (Example: **IC Markets** or **Exness**)
2. **Open a Demo Account** – Practice trading **without risking money**.
3. **Deposit Small Amount (\$10 - \$100)** – Start small, and grow over time.
4. **Use Proper Lot Sizes** – Trade **0.01 or 0.1 lots** to avoid losing money fast.
5. **Trade Only Major Pairs (EUR/USD, GBP/USD)** – These have **low spreads & better liquidity**.
6. **Follow a Trading Strategy** – Use **trend trading or support & resistance** for safer trades.
7. **Use Stop-Loss & Take-Profit** – Never trade without setting risk limits!

☐ **Best Trading Strategies for Small Capital**

- ☐ **Scalping** (Quick trades, 5-10 pips profit) – Best for small accounts
 - ☐ **Day Trading** (Holding trades for a few hours) – Good for steady growth
 - ☐ **Swing Trading** (Holding trades for days) – Best if you don't have time to trade daily
-

☐ **Avoid These Mistakes!**

- ☐ Trading **without a strategy** – Random trades = FAST losses.
 - ☐ Using **high lot sizes** – Risk small to **stay in the game longer**.
 - ☐ Trading **without a stop-loss** – Protect your capital!
 - ☐ Overtrading (**too many trades per day**) – Be patient & wait for good setups.
-

Final Verdict: Forex vs Pocket Option for Small Capital

- ☐ **Pocket Option = High Risk, Fast Losses (Not Recommended for Small Capital)**
- ☐ **Forex Trading = More Control, Long-Term Growth (Best for Small Accounts)**
